

CLEAN SPORT REPORT

Review of the Equine Prohibited Substance List (EPSL)

The EPSL- Banned Substances has during 2018 undergone a complete review by an external expert group. The proposed changes have been accepted by the FEI List Group and accepted by the FEI Bureau.

Publication of Detection Times for Controlled Medications

Nine new Detection Times for Controlled Medications have been published during 2018 and the list now contains twenty-one substances.

Tender process for FEI Central Laboratory

Two laboratories took part in the tender process for FEI Central Laboratory. Both candidates were evaluated on bids, documentation and onsite visits. The FEI Bureau followed the advice of the FEI Approved Laboratory Advisory Group (FALAG) and appointed LGC Newmarket as the FEI Central Laboratory during the period 2018-2022.

Equine Anti-Doping and Controlled Medication Program (EADCMP)

Outcome 2017

Discipline etc.	# Samples	# Positives	% Positives
Jumping	2517	38	1.5
